"Dan, you know you never offer your best plants for sale," accused a recent visitor.
"No commercial grower ever does!"

It wasn't the first time I had heard this complaint, and there is a basis of truth in it.

My best plants are my Stud Plants. I consider them my Business Associates, in that they help produce the fine hybrid seed and seedlings offered for sale. To sell them would be like selling the goose that laid the golden eggs.

But, unlike human associates, Orchid plants outgrow their pots and must be divided. Neither the visitor mentioned above, nor you, nor anyone else, could persuade me to part with the only plant I have of a given Stud, that has fostered, and will foster, many fine, hybrid seedlings.

I am retaining a portion of every plant listed here, for my own, personal stock. The divisions, which I am willing to share with those of you who want the BEST, are individual plants. Each is accurately described, not only as to pot size, number of bulbs and new leads, but its most recent bloom record is copied, verbatim, from my Stud Book.

Each plant is priced fairly, I believe, in consideration of its quality and today's market. These plants are not offered as "bargains". Yes, I know you can buy the same crosses at lower prices, from other growers or from me. But my "Associates" are proven plants and well worth the price I am asking. I would not belittle them by offering them at a cut rate. Nor would you value such a plant if you bought it as a "bargain".

The first check to arrive, buys any given plant selected. If your selection is already sold when your order arrives, your money will be returned promptly, with regrets. No substitutions will be made, for these are individual, numbered plants.

This is the first time I have felt I could share my BEST with those of you who will appreciate it.

DANIEL RYERSON, BOX 805, HOMESTEAD, FLA.

PLANTS IN SHEATH

"Don't you know you never offer your best plants for sale," accused a customer yesterday.
"No commercial grower ever does!"

It wasn't the first time I had heard this complaint, and there is a basis of truth in it.

My best plants are my Seed Plants. I consider them my Business Associates, in that they help produce the fine hybrid seed and seedlings offered for sale. To sell them would be like selling the rooster that laid the golden eggs.

But, unlike human associates, Genetic plants outgrow their good and must be divided. After the visitor mentioned above, for you, not anyone else, could persuade me to part with the only plant I have of a given kind, that was fastened, and will fasten, my line, hybrid seedlings.

I am retaining a portion of every plant listed here, for my own personal stock. The divisions, which I am willing to share with those of you who want the BEST, are individual plants. Each is accurately described, not only as to size, number, color and new looks, but its most recent bloom record is copied, verbatim, from my Seed Book.

Each plant is priced fairly, I believe, in consideration of its quality and today's market. These plants are not offered as "bargains". Yes, I know you can buy the same or better plants, from other growers or from me. But my "Associates" are offered at lower prices, from other growers or from me. I would not believe them to be better plants and will worth the price I am asking. I would not believe them to be better than a new type. Nor would you value such a plant if you bought it as a "bargain".

The first check to arrive, pays any given plant selected. If your selection is already sold when your order arrives, your money will be returned promptly, with the check. No substitutions will be made, for these are individual, numbered plants.

This is the first time I have told I could share my BEST with those of you who will appreciate it.

DANIEL WYERSON, BOX 808, TOMBALL, TEX.

Enclosed is my check for the following DANIEL WYERSON AND ASSOCIATES plants:

I understand there will be no substitution. If any plant selected is already sold, my money will be promptly refunded.

DANIEL RYERSON AND ASSOCIATES
STUD PLANTS IN SHEATH

Plant #	Name	Pot Size	No. of Bulbs	New Leads	Price
E3-9					
50125	LC GEORGE BALDWIN	6"	6	Two sheaths	\$60.00
	Bloomed 9/29/52, three 8½-inch clear rose-lavender blooms with red-purple lips and yellow eyes. Excellent form and substance. One of the few Baldwins that carries good pollen and ripens viable seed pod. This is a double lead plant, will make two good plants after blooming.				
E3-4					
5155	LC WILMOSS	5½"	5	One sheath	35.00
	Bloomed 5/2/52, two 7½-inch dark lavender blooms, bold and well held. Lower half lip dark fuchsia, color circling upward around fuchsia-veined gold zone in throat. Usually makes Mother's Day. Fragrant.				
4-9					
5127	C. MARGARET HUMPHREY	5½"	7	Three leads One sheath	30.00
	Bloomed 6/1/52, four 6-inch, heavy textured, well held White blooms. Double lead plant; will divide easily after blooming.				
4-8					
5106	C. IVA WITHERS	7½"	9	One sheath	25.00
	Bloomed 1/16/53, three 7-inch bright lavender blooms with very brilliant dark crimson-purple lips, color spreading up sides to top of throat. Small crimson-veined gold area deep in throat. Crisp, heavy texture.				
2-10					
5075	LC LOUELLA PARSONS	6"	4	One sheath	25.00
	Division of plant that bloomed 9/23/52, two 8½-inch very showy White-Colored-Lip blooms with white edging on dark purple lips.				
2-10					
5104	C. ST. PETERSBURG	6"	6	One sheath	35.00
	Division of plant that bloomed 1/16/53, two 7½-inch crisp white blooms with gold veins in throat. Very heavy texture. Fragrant.				
2-9					
50113	LC SERBIA	6½"	6	One sheath	40.00
	Bloomed 10/17/52, three 6½-inch bright rose blooms with very vivid, Royal purple lips and throats like rich velvet. Few white veins high in throat. Double lead plant.				
2-8					
5064	LC DERRYNANE	6"	5	One sheath	40.00
	Bloomed 8/9/52 three 8-inch well rounded dark lavender blooms with wide open, ruffled solidly purple lip all the way into throat. Heavy texture.				
2-8					
5222	C. BLANCHEREINE	6½"	6	One sheath	30.00
	Bloomed 7/30/52, four 8-inch very delicately pink flushed, round, bold very heavy textured blooms. Mellow gold in back part of lip. Few maroon veins deep in throat. Blooms brought top price for wedding last Summer. This is a double lead plant; will divide easily after blooming.				
2-8					
5056	LC OLIVER LINES	6½"	7	One sheath	50.00
	Bloomed 9/16/52, four 7-inch bright rose blooms of grand form and heavy texture. Lower half and sides of lip brilliant red-fuchsia. Gold zones at sides of throat. Gold veined purple deep in throat. Very fragrant. This is a double lead plant and will divide easily after blooming.				
2-8					
50126	C. MILDRED	8"	7	One sheath	25.00
	Bloomed 11/1/52, two 7-inch light rose-lavender blooms of grand, bold form and heavy substance. Fuchsia triangle in center of open, frilled lip.
